Workbook: Goals, Personas & One-Pager Canvas

Complete this once and reuse it throughout the Accelerator.

What you put in here will be used in future AI prompts to generate outlines, lessons, and assets. AI can only build with the bricks you provide. Clear goals, crisp personas, and concrete outcomes = stronger prompts and better outputs.

Contents

1. [Academy Overview & Core Business Goal](#)
2. [Metrics You'll Influence](#)
3. [Primary Learner Persona](#)
4. [Course Focus: From Outcomes to Actions \(Do > Know\)](#)
5. [One-Pager Canvas: Putting It All Together](#)

To make this your own, simply copy this template.

1) Academy Overview & Core Business Goal

Company / Product:

Describe your product in one sentence:

Which customer or product metrics could this education program influence?

Choose ONE primary business goal for your Academy this cycle:

- ☐ Adoption (activate and use faster/deeper)
- ☐ Retention (keep customers successful over time)
- ☐ Revenue (expansion, renewals, utilization)
- ☐ Advocacy (promoters, champions, community)

Write your focus statement:

Our goal is to increase [metric] by [X%] by [date] through education focused on [audience] doing [behavior].

Tip: Pick ONE. You can pursue others later with modular add-ons.

To make this your own, simply copy this template.

2) Metrics You'll Influence

Select 3–5 metrics that tie directly to your chosen goal. Add baseline and target.

Select an example from the list (Adoption, Retention, Revenue, or Advocacy) or create your own.

Mindset: Learning outcomes → Customer outcomes → Business outcomes. Keep this chain explicit.

Metric	Department/ Team Influence	Baseline	Target	Notes / How education will influence

Examples ▾				

3) Primary Learner Persona

Start with ONE audience. You can add more later.

Jobs To Be Done statement:

"I want to use _____ so I can _____."

- What’s their current knowledge level?
- What outcomes matter most to them?
- What actions do we want them to take after each lesson?

If you’re unsure about a field (e.g., responsibilities or blockers), ask an LLM for a draft and then refine with your customer knowledge.

Learner Overview	User Type/Segment	
	Primary Role Title	
	Department/Function	
	Industry/Vertical	
Job Context	Core Responsibilities	
	Years of Experience	
Product Relationship	Primary Product Use Cases	
	Frequency of use	
	Produce Features Used Most	
	Skill Level	
	Common Challenges	
Motivation & Goals	Primary Job Goal

3B) Additional Academy Personas (Optional)

As your Academy grows, you'll likely serve more than one learner group. Use this section to outline secondary or future personas whose learning needs you'll address later through modular content or specialized pathways.

Start with brief summaries – just enough context for how these audiences differ from your primary one (e.g., role, goals, challenges, key behaviors). You'll revisit these personas when planning new courses or learner journeys.

You can upload this section along with your primary persona when asking AI to “expand learning journeys across audiences.” The model will adapt tone, learning level, and use cases for each persona group.

Persona Name/Segment	Role/ Function	Primary Goal or Use Case	Key Challenges/Needs	Priority Level (High/Medium/Low)

To make this your own, simply copy this template.

4) Course Focus: From Outcomes to Actions (Do > Know)

Course focus/topic:	
Primary audience description (Summary of Section 3):	
Success outcome (what they will DO):	• Learner will be able to • Learner will be able to • Learner will be able to

To make this your own, simply copy this template.

5) One-Pager Canvas – Putting It All Together

Use this page as your mini pitch deck. Keep it to one page when possible.

Company & Product	[Write here] – 1-sentence value prop and primary use case.
Primary Business Goal	[Write here] – Pick one: Adoption, Retention, Revenue, Advocacy. Add your focus statement.
Top 3–5 Metrics	[Write here] – List with baseline → target.
Primary Persona	[Write here] – Role, JTBD, blockers, success criteria.
Course Focus	[Write here] – Topic + first 7-day success outcome (DO > KNOW).
Principles	• Outcome-Driven • Do > Know • Right Content/Person/Time • Scalable & Measurable • Continuous & Aligned • [Write your own]

To make this your own, simply copy this template.

“Better Inputs” Checklist

Is your workbook complete? Before you start using prompts in the coming weeks, confirm your inputs are:

- ☐ **Single-goal focused** (Adoption, Retention, Revenue, or Advocacy)
- ☐ **Metric-tied** (baseline → target)
- ☐ **Persona-grounded** (role, JTBD, blockers)
- ☐ **Action-oriented** (what they'll do)
- ☐ **Contextual** (product stage, constraints)
